SENSES

SOCIAL ENTREPRENEURSHIP  
AND SOCIAL INNOVATION  
FOR EVERY STUDENT

## ABOUT SENSES

SENSES (Social Entrepreneurship and Social Innovation happens to every student) will develop a new educational approach, providing teachers within primary education with an understanding of social innovation and social entrepreneurship and with tools which can be used to enhance skills in teaching SEI. SENSES is implemented by 8 partners from 5 EU countries (UK, Cyprus, Greece, Italy, Spain). The project will support learners aged between 7-12 in developing a set of structured competencies required to be enterprising and entrepreneurial in a social context.

## OBJECTIVES

### The SENSES project will:

- provide teachers with a collection of guidelines and methodologies for developing students core SEI perceptions and skills,
- create and deliver innovative products and teaching and learning methods, targeting school communities in five countries (UK, Cyprus, Greece, Italy, Spain) with various needs and national educational contexts,
- develop a virtual learning environment which supports access to materials, tools, and discussion of the project outputs.

## INTELLECTUAL OUTPUTS

### IO1- Capacity building for SENSES teachers

A capacity building programme which will support the development of knowledge and skills that teachers require to teach social entrepreneurship and social innovation.

### IO2- Social Entrepreneurship and Innovation happening to all students

An engagement package for students containing specific materials and activities which will develop an understanding of social entrepreneurship.

### IO3- SENSES digital environment

Provision of all the digital resources generated within the project and an e-learning platform suitable for use in a primary school environment.
